INDEX.

VOL. CXXXIV.

Illustrations.

Names.

A

ADDA, Motor Liner, Elder-Dempster, Harland and Wolff, Limited, 587, 624, 636
Ahrons, E. L., on Short Histories of Famous Firms, 29, 160, 570, 580
  Hawthorn, R. and W., Leslie and Co., Limited, 29
  Neilson and Co., Hyde Park Locomotive Works, Glasgow, 570, 580
  Yorkshire Engine Company, Limited, 160
Ailsa Craig Motor Company's Marine Engines, 151
Alexander, Herbert, and Co., Limited, Portable Crane, 37, 40
Allen Hydrostatic Pump Syndicate, The Hydrautomat, 21; (Letters), 34, 60
Allen, W. H., Sons and Co., Limited, Condenser for Turbo-alternator at Leicester, 627
Allen, W. H., Sons and Co., Surface Condensing Plant and Auxiliaries, 403, 414
American High-speed Cruiser Omaha, 1922, and its Prototype Wampanoag, 1864, 55, 66
American Highway Suspension Bridge, 97
American Locomotive Pioneer, Built 1836, F. W. Brewer, 90
American Mine, Octagonal Shaft at, 644
Amsler and Co., Universal 100-Ton Testing Machine, 279
Arrol, Sir William, and Co., Limited, 30-Cwt. Hydraulic Wharf Cranes, 126
Arrol, Sir W., and Co., Limited, Reconstruction of Plantation Quay, Glasgow, 137, 144
Aster Engineering Company, Limited, 10 H.P. Marine Engine and Reversing Gear, 394
"Atlas de Luxe" System of Leather Welding, Press and Forms, 383
Austin Motor Company, Limited, 2-Kilowatt Automatic Electric Lighting Set and Portable Electric Power Plant, 36, 40
"Autohorse" Tractor, S. E. Leach, Limited, 58
Aveling and Porter Traction Engine, 604, 605
Avery, W. and T., Limited, Hydraulic Spring Testing Machine, 534
Avery, W. and T., Limited, 15-Ton Testing Machine, Electrically Operated, 253

B

BABCOCK and Wilcox Boiler Plant and Pipe Work, &c., at Leicester Electric Supply Station, 627
Baines, Sir Frank, on the Restoration and Preservation of Westminster Hall Roof, 494
Baker, Henry, Accurate End Measurement on Measuring Machines Using a Screw, 81; (Letters), 281, 336
Bates, H. H., on Slag-encrusted Boiler Tubes, 504
Batignolles Tunnels, Paris, Demolition of, 530, 531
Beardmore, W., and Co., Limited, Liner Conte Verde, 552
Beatty, Sir David, Squadron at the Battle of Jutland, 416; (Correction), 484
Bethlehem Steel Company's Rolled Steel Lorry Wheels, 45
Boirsault Automatic Railway Coupling, 254
Boulton and Paul's All-steel Biplane, 458
Brackett, F. W., and Co., Limited, Circulating Water Screen at Leicester, Electric Supply Station, 627
Brewer, F. W., on the American Locomotive Pioneer, Built 1836, 90
Bristol to Paddington "Wired Wireless" Scheme, 502, 503
British-built Locomotive in Canada, 1854-58, 349
British Lighting and Ignition Company, New Type of Magneto with Stationary Armature, 384
British Marine Motor—*see* Ailsa Craig
British Sleeping Cars for the Continent, Leeds Forge Company, 671
British Thomson-Houston Company, Limited, Electrical Equipment for Scherbius Rolling Mills, 516, 526
  Plant at Tasmanian Works, 289, 300
  Wireless Telephone Valve Receiving Set, 352, 353
British United Shoe Machinery Company, Limited, Exhibits at the Shoe and Leather Fair, 382
British Westinghouse 3000-Kilowatt Turbo-Alternator, 296, 298
Brown-Boveri Automatic Synchronising Gears, 253
Brown, John, and Co., Limited, Cunarder Franconia, 552
Bruce, Dawson and Co., Spring Plunger Vice, 690
Brunton 6 B.H.P. Marine Engine, 559
Buckeye Traction Ditcher Company, Draining Machine, 37, 38

C

CAMBRIDGE, Royal Show at, 8, 12, 36, 40, 57
Camellaird-Fullagar Marine Diesel Engine, 140; (Letter), 188
Canadian 45 H.P. Motor Road Roller, 366
C.P.R. Liner, Empress of Australia, Föttinger Transformers on, 4, 84 (*Two-page Supplement, July 7th*, 1922)
Caprotti Locomotive Valve Gear, 674
Chalk Farm Widening, London and North-Western Railway, 32
Chernikeeff Electric Submerged Log, 308
China, Coal Mining Enterprise in, Kailan Administration, 296, 438, 439
China, Roads in, Bad and Good, 682
China's Roads, 461, 470
City of Nagpur, Liner, Workman, Clark and Co., Limited, 378, 379
Clyde Launches, Cunarder Franconia and Lloyd Sabando Liner Conte Verde, 552
Coates, W. A., on High-voltage Switchgear Developments, 198
Comet, The, 1835; The Swift, 1836, Locomotives, R. and W. Hawthorn, Leslie and Co., Limited, 29
Constantinesco Wave Transmission of Power System, 444, 466, 468
Cowans, Sheldon and Co., Limited, 40-Ton Breakdown Crane, 616; (Letter), 628
Crawley Agrimotor Company, Limited, The "Hydrohoist," 59
Crossley Motors, Limited, 12-14 H.P. Motor Car Chassis, Engine, Gear-box, &c., 491, 492, 498
Crossley Wood Fuel Suction Gas Power Plant at Lonely Mine, 194, 202

D

DAIMLER 16 H.P. Six-cylinder Chassis, 523, 524
"D.E." Type Lifeboat Engine, 656; (Erratum), 704 (*Two-page Supplement, December 22nd*, 1922)
Dennis Hand-drawn Motor Fire-engine, 57
Devonshire Ironworks, Staveley Coal and Iron Company, 242, 246
Dorman, W. H., and Co., Limited, Wave Generating Plant and Wave Power Rock Drill, 444, 466, 468
Dry Dock Company, Surabaya, Java, Self-docking a 14,000-Tons Floating Dock, 96 (*Two-page Supplement, July 28th*, 1922)
Drysdale Centrex Pump, 124
Dubilier Condenser Company's Condensers for Wireless Telephony, 353, 354
Duluth Coal Wharf, Lake Superior, 595, 608, 623, 653, 666

E

ELDER-DEMPSTER Motor Liner Adda, Harland and Wolff, Limited, 587, 624, 636
Ellerman Liner City of Nagpur, Workman, Clark and Co., Limited, 378, 379
Elsden, F. V., on Skimming Rivers for Irrigation Water, 485
Empress of Australia, Föttinger Hydraulic Transformers on, 4, 84 (*Two-page Supplement, July 7th*, 1922)
English Electric Company's Equipment for Leicester Supply Station, 627
Evans, Joseph, and Sons, Limited, Treble Ram, Electrically Driven Pump, 349
Evershed and Vignoles, Limited, The "Meg" Insulation Tester, 391, 392
Evinrude One or Two-cylinder "Inboard" Motors, 558, 559

F

FEDERATED Malay States Railways, 114, 118
Ferranti, Limited, 110,000-Volt Electric Transformer, 422
Fleetwood Automatic Telephone Exchange, 474
Fodens 6-Ton Steam Lorry, 625
Föttinger Transformers on a Liner, 4, 84 (*Two-page Supplement, July 7th*, 1922)
Foster "Wellington" Tractor and Steam Tipping Wagon, 604, 605
Foxwell Automatic Selvedge Stamping Machine, 362
French Aluminium Bronze Coinage, 74
French Suction Gas Lorries, Brasier, and Saurer, 332, 333
French Suction Gas Plant for Lorries, Cazes, Française, Lion, 332, 333, 334
Fully Station, Switzerland, Hydro-electric Plant at, 88

G

GENERAL Electric Company, Kathode Ray Oscillograph, 557
General Electric Company, Million-Volt Transformer, 557
Gennevilliers Electric Power Station, 242, 267, 270, 294 (*Two-page Supplement, September 22nd*, 1922)
Gennevilliers Power Station, Pipe Line Work at, 336
German Capital Ship and Light Cruiser Building Programme, 1914-1918, 373
Gimson Shoe Machinery Company, Limited, Exhibits at Shoe and Leather Fair, 418
Giza, Egypt, School of Engineering, 69
Gladstone Dock Extensions at Liverpool, 83, 92
Glasgow Harbour, Reconstruction of Plantation Quay, Sir W. Arrol and Co., Limited, 137, 144
Glasgow and South-Western Baltic Type Tank Engine, 502; (Letter), 578 (*Two-page Supplement, November 10th*, 1922)
Gold Coast, Harbour Work Oil Locomotives, McEwan, Pratt and Co., 646
Great Central Railway, Long Distance Operation of Facing Points, 227
Guillet, Professor Leon, on Testing of Materials for Shipbuilding, 43, 46
Gwynnes Engineering Company, Limited, Chassis of 8 H.P. Motor Car, 490, 491, 498

H

HADFIELDS, Limited, 28in. Rolling Mill, Electrically Driven, and Shop at East Hecla Works, Sheffield, 134 (*Two-page Supplement, August 11th*, 1922)
Harland and Wolff, Limited, Motor Liner Adda, 587, 624, 636
Hatfield, Dr. W. H., on Corrosion Tests, Micrographs of Samples, 639, 641
  Apparatus for Measurement of Electrode Potentials, 643
Hawthorn, R. and W., Leslie and Co., Limited, 29—For Engines Built by—*see* Subjects Index, Locomotives
Hemel Hempstead Engineering Company's Sack Hoist, 38
Henricot Automatic Railway Coupling, 254
Hepburn, Henry A., on the Gaseous Fluid Ejector, 401, 429; (Letters), 505, 524, 578
Hepburn-Forbes Internal Combustion System, 224
Herbert, Alfred, Limited, New Method of Cutting Off Bars, 244
Herbert, Alfred, Limited, Scraper Knife Truing Machine, 615
Hollings and Guest, Limited, Hydraulic Punch for Making Chain Links, 125
Home Grown Sugar, Limited, Kelham Beet Sugar Factory, 161, 170
Hong Kong, Shipbuilding Progress at, 116
Hordern and Mason, Pneumatic Power Press Guard, 125
"Hortiplow," The Titan, Motes, Limited, 38
Hudson River Vehicular Tunnel, Ventilation of, 542
Humber Motor Cars, 11.4 H.P. Engine and Chassis and 15.9 H.P. Chassis, 490, 498
Hydrautomat, Allen Hydrostatic Pump Syndicate, 21; (Letters), 34, 60

I

IGRANIC Electric Company's Inductance Tuning Coils and Intervalve Transformer, 353, 354
India, Flood Discharge and Dimensions of Spillways in, George B. Williams, 321
India, Reinforced Concrete Bridge Over the River Pambayaur, 410, 411
Ingham, W., on the Vaal River Scheme and Barrage, 576 (*Two-page Supplement, December 1st*, 1922)

J

JAPAN'S Naval Construction Programme, 344, 356
Jenkin, C. F., on Fatigue in Metals, 612
Johns, A. W., on the Stability of the Sailing Warship, 94, 108, 133, 159, 183

K

KAILAN Mining Administration, China, 296, 438, 439
Kapp, Dr. Gisbert (The Late), on Power Factor Correction, 555, 561
Kearns, H. W., and Co., Large Surfacing and Boring Machine, 360, 361
Kelham Beet Sugar Factory, Hal Williams and Co., 161, 170, 184, 187, 210
Kershaw, J. B. C., on Atmospheric Pollution and Owens Jet Apparatus, 2
Kershaw, J. B. C., on Electrolytic Methods of Hydrogen Gas Production, 315

L

LANCIA 13.9 Saloon Car, 489, 498
Leeds Forge Company, British Sleeping Cars for the Continent, 671
Leicester Electricity Supply Station, 627
Leyland Motors, Four-cylinder Trojan Motor Car, L. Hounsfield Design, 522, 523
Liverpool—*see* Gladstone Dock
London Traffic Problem, Suggested Solution, F. Rings and T. C. Hood, 200
Louden-King Overhead Runway System, 588
Low Audiometer, Motor Cycle Noises Tested by, 335
Lowell, P. D., on Thermionic Valves, &c., 281
Lumsden Machine Company, Limited, Vertical-spindle Surface Grinding Machine, 688

426626

M

McBRIDE and Lowes Pneumatic Cloth Creaser, 363
McEwan, Pratt and Co., Oil Locomotives for the Gold Coast, 646
Malaya, British, Railways in, 114, 118
Manchester, Concrete Roads in, J. B. L. Meek, 375, 386
Manchester Ship Canal, Petroleum Spirit Dock on, 324, 328
Manchester, Textile Machinery Exhibition, 362, 390
Manchester Wireless Broadcasting Station, 670
Marine and Small Craft Exhibition, 558
Marseilles-Rhone Canal, 432, 434, 442
Marshall 30 H.P. Oil Engine, 604
Marshall, Sons and Co., Portable Steam Engine, All-steel Thrashing Machine, and Mechanical Flax Puller, 9, 12
Martin's Cultivator Company, Limited, Mole Drainer, 37
Massey, B. and S., Limited, Pneumatic Power Hammer, 534
Meek, J. B. L., Concrete Roads in Manchester, 375, 386
Mersey Railway, Re-signalling of, 16
Metropolitan-Vickers Electrical Company, Limited, Large Electric Transformers, 584
Model of Textile Mill Drive, 390
3000-Kilowatt Turbo-generator, 216, 220
Wireless Telephony Receiving Sets and Model of Proposed Aerial, 352
Meuse Lock on the Meuse-Waal Canal, Dr. L. R. Wentholt, 235, 261
Michell Bearings, Limited, Cup and Ball Viscometer, 532
Mirrlees, Bickerton and Day Paraffin Engines, 36, 37
Mirrlees-Watson Surface Condensing Plant, 70; (Letters), 112, 168
Mitchell Conveyor and Transporter Company's Equipment at Leicester Electrical Supply Station, 627
Moody, L. F., Compound Turbine Rubber, 214
Morley, T. B., on the Heat Pump, 27
Motes, Limited, The Titan "Hortiplow," 38
Moulin, E. B., High-frequency Voltmeters, 634

N

NATIONAL Gas Engine Company's Wood Refuse Suction Gas Plant and 5 B.H.P. Engine, and 6 H.P. Engine for Petrol, Paraffin or Gas, 36, 40
Neilson and Co., 570, 580—For Locomotives Built by—*see* Subjects Index, Locomotives
Nesdrum Water-tube Boiler, Richardsons, Westgarth and Co., Limited, 166, 167
New Holland Railway Pier, Strengthening, 450
North-Eastern Railway Express Passenger Electric Locomotive, 274, 280
North-Western Fuel Company of America, Coal Wharf and Machinery of the, 595, 608
Northampton Machinery Company, Roller Bearing, 383, 384

O

OERLIKON Company, 1500-Volt, 50-Cycle Rotary Converters, 252
Omaha, United States Light Cruiser, 1922, 55, 66
Owens Jet Apparatus for Dust Examination, J. B. C. Kershaw, 3
Oxford Steam Plough Company, Limited, Motor Road Roller with Scarifier, 100

P

PARK GATE Ironworks, 216, 220 (*Two-page Supplement, September 1st*, 1922)
Parsons Motor Company, Limited, Portable Pumping Set for China, 45
Petter's 3 B.H.P. Oil Engines for Lighting Set and Pumping Set, 604
Planche Rotary Compressor, 280
Poultney, E. C., on Locomotive Power, 248
Premier Gas Engines for Suction Gas Producers at Lonely Mine, S. Rhodesia, 194, 202
Pulsometer Engineering Company, Limited, Silent Plunger Pump, 152

R

RAMSAY Rotary Evaporative Condenser, 93, 100
Ransomes, Sims and Jefferies, Lorry Conversion Attachment, 38
Rateau, Professor A., Use of Turbo-compressor in Aviation, 476; (Letter), 560
Reavell, W., on Testing Air Compressors, 586
Reeds Double-acting Hot-bulb Engine, 558, 559
Reese, A. K., Bases of Modern Blast-furnace Practice, 239, 406, 463
Richardsons, Westgarth and Co., Limited, Nesdrum Water-tube Boiler, 166, 167
Robey Six-wheeled Steam Wagon, 625
Robinson, Thomas, and Son, Limited, Band Resawing Machine, 44
Robinson Cyclone Grain Cleaner, 8
Robinson Wheat Stoner and Washer, 8
Rolls-Royce 20 H.P. Motor Car, 489, 498
Rotterdam Floating Dry Dock, 228
Royal National Lifeboat Institution, Penlee Motor Lifeboat, The Brothers, J. S. White and Co., Limited, 656 (*Two-page Supplement, December 22nd*, 1922)
Royal Show at Cambridge, 8, 12, 36, 40, 57
Ruston-Hornsby 2 H.P. Electric Lighting Set, 626
Ruston and Hornsby Motor Cars, 16 H.P. and 20 H.P., 462, 463
Ruston and Hornsby Ploughshare Regulating Gear, 37, 38
Rycroft, J. E., on Steam Engine Valve Leakage, 62

S

SCHERBIUS Rolling Mills, Double-range, British Thomson-Houston Company, Limited, 516, 526
Sila Hydro-electric Project, 304
Simar Rotary Soil Tiller, Piccard, Pictet and Co., 8
Sentinel Wagon Works, All-steel Trailer Wagon, 9, 12
Smethurst, H., and Sons, Limited, The Vigoratair, 390
Smith, Thomas, and Sons, Limited, Crane Works at Rodley, 122, 123
Smithfield Club Show, 604, 625
Southampton, 60,000-Ton Floating Dry Dock for London and South-Western Railway at, 420, 421
Stanton, Dr. T. E., Hawksley Lecture on Some Recent Researches on Lubrication, 598
Stirling Boiler with Riley Stokers, 243
Stone, J., and Co., Limited, New Rotary Pump, 585
Stone, J., and Co., Limited, Ship's Window, 534
Stothert and Pitt, Limited, 15-Ton Steam Travelling Cranes for Morocco, 174, 175
Sukkur Proposed Barrage, 190
Sulzer Brothers, 200 H.P. Diesel-electric Railway Coach, 692, 696
Sutcliffe, Speakman and Co., Limited, Briquetting Plant for Iron Ores, 148, 149
Swedish Electric Furnace for Smelting Iron Ore, 6
Swedish Solid Injection Oil Engine, 290

T

TASKER, W., and Sons, Limited, Steam Tractor, 626
Tasker's Engineering Company's Armour Plate Grinding Machine, 308
Tasmania, Electrolytic Zinc Works in, 289, 300
Tetbury Waterworks Borehole and Pumping Machinery, 64
Thomas Gas Meter, 111
Thorne, A. T., and J. Calderwood, on Torsional Oscillations and Marine Reduction Gearing, 547
Thornycroft 3-Ton Suction Gas Lorry, 19
Tientsin, Kailan Mining Administration Building, 438, 439
Tucker, Major W. S., on the Hot Wire Microphone and its Applications, 600
Turner Tanning Machinery Company, Limited, 418

V

VAAL River Scheme and Barrage, W. Ingham, 576 (*Two-page Supplement, December 1st*, 1922)
Vaughan Crane Company, Limited, 100-Ton Overhead Electric Travelling Crane for Japan, 554, 562
Victorian Railways, Consolidation Type Locomotive, 689
Vigoratair, H. Smethurst and Sons, Limited, 390
Vulcan Oil Fuel Burner, 84

W

WALLACE 3 H.P. Single Sleeve Valve Engine and Dynamo, 37, 40
Wallis and Steevens Traction Engine, 626
Walsall Corporation Power Station at Birchills, 632
Wampanoag, United States Light Cruiser, 1864, 55
Wellman Smith Owen Engineering Corporation, The "Clere" Mechanical Rotary Excavator, 611
Wentholt, Dr. L. R., Meuse Lock on the Meuse-Waal Canal, 235, 261
Westminster Hall Roof, Restoration and Preservation of, Sir Frank Baines, 494, 495, 496
White, J. S., and Co., Limited, Penlee Motor Lifeboat, The Brothers, 656; (Erratum), 704 (*Two-page Supplement, December 22nd*, 1922)
Whitehead, A., Avoiding Deformation During Machining, 98
Wilkinson, H., on Cotton Opening, Mixing and Carding Machinery, 550
Williams, George Bransby, on Flood Discharge and Dimensions of Spillways in India, 321
Williams, Hal, and Co., Kelham Beet Sugar Factory, 161, 170, 184, 187, 210
Wilson, L. A., and C. R. Richards, on Air-steam Mixtures, 662
Windeler, George E., on the Care and Maintenance of Diesel Engines, 447, 478
Wolseley Motor Car, Chassis, Engine, Carburetter, &c., 544, 545
Workman, Clark and Co., Limited, Ellerman Liner City of Nagpur, 378, 379

Y

YORKSHIRE Engine Company, Limited, 160—For Engines Built by—*see* Subjects Index, Locomotives
Youlten Openers, Limited; Cotton Opener, 362, 390

Subjects.

A

AERIAL, Proposed, Model of, Metropolitan-Vickers Electrical Company, 352
Aeroplane, All-steel, Construction, 458
Aeroplane Construction, Machine for Drawing Sections, Machine for Rolling Sections, 459, 460
Aeroplane Members, All-steel, Sections of, Boulton and Paul, Limited, 460
Agricultural Show, Royal, at Cambridge, 8, 12, 36, 40, 57
Air Compressors—*see* Compressors
Air-steam Mixtures, L. A. Wilson and C. R. Richards, 662
Aluminium Bronze Coinage, Casting, French, 74
Anthracite Handling, Screening and Sorting Machinery, 595, 608, 623, 653, 666
Atmospheric Pollution, Owens Jet Apparatus, J. B. C. Kershaw, 2
Automatic Telephone—*see* Telephone
Axles, Locomotive, Deflection Testing of, Amsler and Co., 279

B

BAND Re-sawing Machine, Thoma Robinson and Son, Limited, 44
Barrage, Proposed, The Sukkur, 190
Barrage, Vaal River Scheme and, W. Ingham, 576
Beet Sugar Factory at Kelham, Hal Williams and Co., 161, 170, 184, 187, 210
Biplane, All-steel, Boulton and Paul, 458
Blast-furnace Practice, Modern, Bases of, 239, 406, 463
Blast-furnaces at Staveley Ironworks, 242, 246
Boiler, Nesdrum Water-tube, Richardsons, Westgarth and Co., Limited, 166, 167
Boiler Tubes, Slag Encrusted, H. H. Bates on, 504
Boilers, Babcock, also Stirling Type, 243
Boilers, Oil-fired, of the C.P.R. Liner Empress of Australia, 84, 85
Boot and Shoe Machines, Various, at the Shoe and Leather Fair, British United Shoe Machinery Company, 382; Gimson Shoe Machinery Company, Limited, &c., 418
Boring Machines—*see* Machine Tools
Bridges—*see* Concrete Suspension
Briquetting Plant for Iron Ores, Sutcliffe, Speakman and Co., Limited, 148, 149

C

CAISSON, Ferro-concrete, for Petroleum Dock on the Manchester Ship Canal, 324, 325, 326, 328
Canal Head Regulator and Sluice Gates for, Proposed, F. V. Elsden, 485
Canal, Marseilles-Rhone, 432, 434, 442
Canal, Meuse-Waal, Meuse Lock on the, Dr. L. R. Wentholt, 235, 261
Carburetter, S.U. Two-jet, for Wolseley Car, 545
Carding Engine, Revolving Flat, 550
Care of Engines—*see* Engines
Casting Aluminium Bronze for French Coinage, 74
Circulating Water Screen at Leicester Electric Supply Station, F. W. Brackett and Co., Limited, 627
Coal Pusher for Locomotive Tenders, 615
Coal Wharf and Machinery of North-Western Fuel Company of America, 595, 608, 623, 653, 666
Collieries in China, Successful Mining Enterprise, 296
Colorimetric Method of Analysis for Sewage Effluents, R. S. C. Walters and V. G. Pickering, 602
Compressor, Rotary, M. R. Planche, 280
Compressors, Air, Testing, William Reavell, 586
Concrete Floating Dock at Trieste, 10
Concrete, Reinforced, Bridge Over River Pambayaur, Southern India, 410, 411
Concrete and Reinforced Concrete, Concrete Mixing and Handling Plant for the Meuse Lock, 235, 261
Concrete Roads in Manchester, J. B. L. Meek, 375, 386
Condenser, Rotary Evaporative, The Ramsay, 93, 100
Condenser for 10,000-Kilowatt Turbo-alternator, W. H. Allen, Sons and Co., Limited, 627
Condensers, Various, for Wireless Telephony, Dubilier Condenser Company, Limited, 353, 354
Condensing Plant, Surface, and Auxiliaries, W. H. Allen and Co., 403, 414
Condensing Plant, Surface, Mirrlees Watson Company, 70; (Letters), 112, 168
Corrosion, Micrographs of Samples Tested, Dr. W. H. Hatfield, 639, 641; Electrode Potentials, Apparatus for Measurement of, 643
Cotton Opener, Youlten Openers, Limited, 362, 390
Cotton Opening, Mixing and Carding Machinery, H. Wilkinson, 550
Coupling—*see* Railway
Crane, 40-Ton Breakdown, for Jamaica, Cowans, Sheldon and Co., Limited, 616; (Letter), 628
Crane, 100-Ton Overhead Electric Travelling, Vaughan Crane Company, Limited, 554, 562
Crane, Portable, Herbert Alexander and Co., Limited, 37, 40
Crane Works—*see* Works
Cranes, 30-Cwt. Hydraulic Wharf, Sir William Arrol and Co., Limited, 126
Cranes, 15-Ton Locomotive Steam Jib, for Morocco, Stothert and Pitt, Limited, 174, 175
Cutting Off Bars, New Method, Alfred Herbert, Limited, 244

D

DEFLECTION Testing of Locomotive Axles, 279
Deformation During Machining, Avoiding, A. Whitehead, 98
Diesel Engines—*see* Engines
Dock Extensions at Liverpool, 83, 92
Dock, Floating Dry, 60,000-Ton, for London and South-Western Railway, Southampton, 420, 421
Dock, Floating Dry, at Rotterdam, 228
Dock, Petroleum—*see* Petroleum
Dock—*see also* Self-docking
Draining Machine, Buckeye, 37, 38
Dredger, Suction, for Reclamation Work, 659

E

ELECTRICAL MATTERS:

Armour Plate Grinding Machine, Tasker's Engineering Company, Limited; and Electrical Motors, &c., for, Metropolitan-Vickers Company, 308
Automatic Electric Lighting Set and Portable Electric Power Plant, Austin Motor Company, Limited, 36, 40
Birchills Power Station, Walsall, 632
Cells Used in Electrolytic Production of Hydrogen Gas, International Oxygen Company; Knowles; Levin; Schuckert, 315
Chernikeeff Electric Submerged Log, 308
Electrolytic Methods of Hydrogen Gas Production, J. B. C. Kershaw, 315
Electrolytic Zinc Works in Tasmania, 289, 300
Fly-wheel Motor Generator Set at Hadfields, East Hecla Works, 134 (*Two-page Supplement, August 11th*, 1922)
Gas-driven Power Plant Using Wood Fuel, Crossley Brothers, Limited, 194, 202
Gennevilliers Electric Power Station, 242, 267, 270, 294 (*Two-page Supplement, September 22nd*, 1922)
High-voltage Switchgear Developments, W. A. Coates, 198
Insulation Tester, The "Meg," Evershed and Vignoles, Limited, 391, 392
Kathode Ray Oscillograph, Western Electric Company, 557

Magnetic Properties of Heat-treated Carbon Steels, E. D. Campbell and E. R. Johnson, 266
Manufacture and Treatment of High-speed Steel, H. K. Ogilvie, 265, 282
Nitrogenisation of Iron and Steel by Sodium Nitrate, L. E. Benson, 240
Provisional Programme, List of Papers, 96

Institute of Marine Engineers:
Presidential Address, Sir George Goodwin, 348

Institute of Metals:
Aluminium Corrosion Research Sub-Committee, Report, J. E. Clennell, 320
Aluminium, Effects of Overheating and Melting on, Dr. W. Rosenhain and Mr. J. D. Grogan, 319
Antimony-bismuth System, Maurice Cook, 346
Autumn Meeting at Swansea, 152, 298, 306, 319, 345
Cause of Red Stains on Silver Plate, A. Jefferson, 346
Cleaning of Aluminium Utensils, P. Seligman and P. Williams, 347
Constitution and Age-hardening of Alloys of Aluminium with Copper, &c., Miss M. L. V. Gayler, 319
Copper-rich Aluminium-copper Alloys, D. Stockdale, 320
Corrosion Research Committee, Report, Dr. Guy D. Bengough and Mr. J. M. Stuart, 307
Effect of Superheated Steam on Non-ferrous Metals Used in Locomotives, Sir H. Fowler, 307
Grain Size and Diffusion, Professor J. H. Andrew and Mr. Robert Higgins, 307
Hardness of Brasses, F. W. Harris, 345
Intermetallic Actions: The System Thallium-Arsenic, G. A. Mansuri, 346
Linear Shrinkage of Cast Metals, Dr. F. Johnson and Mr. W. G. Jones, 345
Programme of Meeting and List of Papers, 152
Science of Human Effort, Dr. R. S. Hutton, 298, 306
Structure of Eutectics, F. L. Brady, 346
Visits to Works, 319, 320
White Metals, Captain J. Cartland and Others, 319
BIRMINGHAM LOCAL SECTION:
Influence of Iron on Copper and Copper Alloys, Dr. F. Johnson, 412

Institute of Transport:
Railway Management, Presidential Address, Sir Sam Fay, 361

Institution of Automobile Engineers:
High Compression High-speed Engine *versus* Low Compression Low-speed Engine, Debate, Major F. Strickland and Mr. H. R. Ricardo, 492
Presidential Address, Colonel D. J. Smith, 379

Institution of Civil Engineers:
Floor, &c., of the Forth Bridge, Strengthening, W. A. Fraser, 633
Pass List, October Examinations, 1922, 565
Presidential Address, Dr. W. H. Maw, 500
MANCHESTER AND DISTRICT ASSOCIATION:
Presidential Address, Mr. J. B. L. Meek, 488
NEWCASTLE-UPON-TYNE ASSOCIATION:
Utilisation of Water and Tidal Power, Presidential Address, R. F. Hindmarsh, 616

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Electrical Engineers:
Domestic Load Building, F. Gillott, 614
Electric Arc Welding Apparatus and Equipment, J. Caldwell, 689
Kathode Ray Oscillograph, Western Electric Company, 557
Pass Lists, October Examinations, 1922, 591; (Correction), 633
Possibility of Transmission by Underground Cables of 100,000/150,000 Volts, A. M. Taylor, 664
Power Factor, Improvement of, Gisbert Kapp (The Late), 561
Presidential Address, International Telephony, Mr. Frank Gill, 486
INFORMAL SECTION:
Canada and the United States, Electrical Progress in, B. Welbourn, 583
Importance of Commercial Knowledge to the Engineer, President, Mr. F. Gill, 535
LIVERPOOL SUB-SECTION:
Electric Light Wiring, Discussion, 578
LONDON STUDENTS' SECTION:
Joint Visit to South Wales, 201
WIRELESS SECTION:
Direct Reading Thermionic Voltmeter, E. B. Moulin, 634
Radio Direction-finding Installations, Effects of Local Conditions, R. L. Smith Rose and R. H. Barfield, 562

Institution of Heating and Ventilating Engineers:
Autumn General Meeting, 419
Heating and Ventilating of Passenger Ships, J. L. Musgrave, 419
Some Points in the Law of Heating Engineers' Contracts, Robert Fortune, 419

Institution, Junior, of Engineers:
Ball and Roller Bearings, Lecture, A. W. Macaulay, 578

Institution of Mechanical Engineers:
Air Compressors, and Note on Testing Air Compressors, William Reavell, 582, 586
Electric Locomotives, Sir Vincent Raven, Discussion, 546
Presidential Address, Dr. H. S. Hele-Shaw, 434
Reclamation Plant and its Operation, Gascoigne Lumley, 659, 668
Restoration and Preservation of Westminster Hall Roof, Lecture by Sir Frank Baines, 494
Super-charging for Aero-engines, Turbo-compressor for Greatest Speeds in Aviation, Professor A. Rateau, 472, 476
Thomas Hawksley Lecture on Some Recent Researches on Lubrication, Dr. T. E. Stanton, 598
NORTH-WESTERN BRANCH:
Cotton Opening, Mixing and Carding Machinery, H. Wilkinson, 550
Thomas Hawksley Lecture on Lubrication, Dr. T. E. Stanton, 628
GRADUATES' ASSOCIATION:
Joint Visit to South Wales, 201

Institution of Naval Architects:
Contrary Turning Co-axial Propeller Screws, General G. Rota, 43
Proportions and Block Coefficients of Merchant Steamers, W. J. Lovett, 43
Sir Philip Watts on Papers by Sir E. d'Eyncourt and Major Fea, 63
Stability of Large Ships, Sir John Biles, 43
Summer Meetings in Paris, 14, 18, 43, 46
Tendency of Warship Design as Affected by the War, Sir Eustace d'Eyncourt, 14, 18
Testing of Materials for Shipbuilding, Professor L. Guillet, 43, 46
Visits and Social Functions in France, 43
Washington Conference, Some of the Consequences of, with Regard to Naval Construction, Major L. Fea, 14

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution, North-East Coast, of Engineers and Shipbuilders:
Torsional Oscillations and Marine Reduction Gearing, A. T. Thorne and J. Calderwood, 547

Society of Chemical Industry:
Annual Meeting in Glasgow, 33
Calibration of Storage Tanks, Dr. J. W. McDavid, 33
Chemical Engineering Conference, Papers by P. Parrish, Ammoniacal Liquor Stills; N. A. Walmsley, Tar Distilling; Professor J. W. Hinchley, Evaporation in Chemical Factories; Glycerine Manufacture, 33
Messel Memorial Lecture, Professor H. E. Armstrong, 33
Presidential Address, Dr. R. F. Ruttan, 33
LONDON SECTION:
Presidential Lecture, Some Problems in Chemical Industry, Dr. E. F. Armstrong, 492

Society of Glass Technology:
First Meeting of the Session at York, 468
Frank Wood Medal Awards, 606
Mediæval Glass Painting, J. A. Knowles, 468
Modern Developments in Stained and Painted Glass, H. J. Powell, 468

Society, Liverpool Engineering:
Four-stroke and Two-stroke Cycle Engines, A. S. Watkinson, 578

Society, Royal Aeronautical:
Fatigue in Metals, C. F. Jenkin, 612

Society, Royal, of Arts:
Hot Wire Microphone and its Applications to the Problems of Sound, Major W. S. Tucker, 600

ATMOSPHERIC Pollution, J. B. C. Kershaw, 2
Audiometer, Professor Low, 335
Australasian Engineering Notes, 477, 501, 588 686
Australia, Cotton Culture in, 201, 384
Austrian Works—*see* Works
Autohorse, S. E. Leach, Limited, 58

B

"BACK Pressure" Process Steam Problem, G. James Wells, 674
Baines, Sir Frank, on the Restoration and Preservation of Westminster Hall Roof, 494
Baker, Henry, Accurate End Measurement on Machines Using a Screw, 81; (Letter), 281
Baking Oven, Continuous, An American, 214
Balancing Machine, Dynamic, Lawaczec-Heymann, 201
Ball and Roller Bearings, A. W. Macaulay, 578
Band Re-sawing Machine, T. Robinson and Son, Limited, 44
Barrage, The Sukkur, Proposed, 190
Barrage, Vaal River Scheme and, W. Ingham, 576 (*Two-page Supplement, December 1st, 1922*)
Batignolles Tunnels, Demolition of, 530
Beare, Professor T. Hudson, on the Railway Gauge Problem in Australia, 251
Bearings and Bearing Metals, 581
Beet Sugar Factory, The Kelham, 161, 170, 184, 187, 210
Bengough, Dr. Guy D., and Mr. J. M. Stuart, Report to the Corrosion Research Committee, 307
Benson, E. L., on the Nitrogenisation of Iron and Steel by Sodium Nitrate, 240
Biles, Sir John, on the Stability of Large Ships, 43

Self-docking of a Large Floating Dock, Surabaya Dry Dock Company, 96 (*Two-page Supplement, July 28th*, 1922)
Selvey, W. M., on Boiler Plant Efficiency, 643
Seven-day Journal, 7, 35, 61, 87, 113, 139, 165, 189, 214, 241, 269, 295, 323, 351, 381, 409, 437, 465, 493, 521, 549, 575, 603, 631, 661, 687; (Paragraph), 132
Sewage Effluents, Colorimetric Method of Analysis for, C. S. Walters and V. G. Pickering, 602

SHIPS AND SHIPBUILDING:

General:

Boat, Hotchkiss Hydraulic Propeller Company, Limited, 558
Chernikeeff Electric Submerged Log, 308
Clyde Launches, Two Recent, 552
Co-axial Propeller Screws, Contrary Turning, General G. Rota, 43; (Letter), 60
Cross-Channel Steamer Design, Recent Developments in, 513, 541; (Letter), 578
Föttinger Transformers on a Liner, 4, 84 (*Two-page Supplement, July 7th*, 1922)
Hong Kong, Shipbuilding Progress at, 116
Lloyd's Register, Annual Report, 436
Lloyd's Register, New Rules, 86
Lloyd's Register, Quarterly Returns, 380
Lloyd's Register Shipbuilding Returns, 48
Lloyd's Register of Shipping, New Edition of Book, 123
Motor Ship, Propelling Machinery, James Richardson, 293
Propeller, Feathering, Astle's, Limited, 559
Shipbuilding Industry, Position of the, 196
Ship's Window, A New, J. Stone and Co., Limited, 534
Stability of Large Ships, Sir John Biles, 43
Story of the Ship, Sir Westcott Abel's Lecture, 272
Testing of Materials for Shipbuilding, Professor L. Guillet, 43, 46
Thornycroft Motor Yacht, 685
Torsional Oscillations and Marine Reduction Gearing, A. T. Thorne and J. Calderwood, 547
Wreck Statistics for 1921, 192

Naval Matters:

Battleship Programme, 638
Battleships and Aircraft, 119
Cruising Endurance of Submarines, 275
Fleet Reductions and Comparative Strength, 171
Influence of Depth of Water on the Speed of Warships, Sir D. Beatty's Squadron in the Battle of Jutland, 416; (Correction), 484
New Battleships, 471

SHIPS AND SHIPBUILDING (*continued*):

Naval Matters (*continued*):

Propulsion of Submarines, 527
Stability of the Sailing Warship, A. W. Johns, 94, 108, 133, 159, 183
Tendency of Warship Design as Affected by the War, Sir Eustace T. d'Eyncourt, 14, 18
Training of Naval Engineers, 667
Vindication of the Capital Ship, 67
Washington Conference and Naval Construction, Major Fea, 14

Foreign Navies:

German Capital Ship and Light Cruiser Building Programme, 373
Japan's Naval Construction Programme, 344, 356
United States Light Cruisers Omaha, 1922, and Wampanoag, 1864, 55, 66

Mercantile and Miscellaneous Vessels:

Aegir, Locomotive Transport Ship, Conversion of German War Vessel, 239
Conte Verde, Liner, W. Beardmore and Co., Limited, Launch, 552
Elder Dempster Motor Liner Adda, Harland and Wolff, Limited, 587, 624, 636
Ellerman Liner City of Nagpur, Workman, Clark and Co., Limited, 378, 379
Empress of Australia, Canadian Pacific Steamer, Föttinger Transformers on, 4, 84 (*Two-page Supplement, July 7th*, 1922)
Franconia, Cunard Liner, Launch of, John Brown and Co., Limited, 552
Motor Ship Eknaren, Trials of, Wm. Doxford and Sons, Limited, 354
Motor Ship Handicap, Rosenberg Mekaniske Verksted, 139
P. and O. Liner Moldavia, Cammell Laird and Co., 350
Penlee Motor Lifeboat The Brothers, J. S. White and Co., Limited, 656; (Erratum), 704 (*Two-page Supplement, December 22nd*, 1922)
Troilus, Steamship, 116

Paragraphs.

A

ABRASIVE Wheels, Recommendations to Secure Safety in Use of, 441
Aerial Ropeway in Calcutta for Refuse Removal, 524

AERONAUTICS:
Accidents in the Air, Investigation of, 26
Aerodrome at Castle Bromwich, Changing Hands, 601
Air Survey of the Irrawaddy Delta, Projected Experiment by Indian Government, 413
Aviation in Denmark, 117
Forest Timber Guarded by Aeroplane, Grain also Sown by Aeroplane, 31
Giant Commercial Hydro-aeroplane, American Friendly Challenge to England and other Countries, 39
Hydroglider of Small Size, Trials, Short Brothers, 245
Motorless Flight Competition in France, 665
Naval Airship Explosion in Japan, 39
Pilotless Aeroplane Controlled by Wireless, Experiments in Paris District, 469
Racehorse Transport by Aeroplane, 11

ALKALIES and Drain Tiles, 502
Aluminium Alloy Sand Castings, R. J. Anderson, 469
Aluminium Containing Tin, Investigations, 169
Aluminium Sulphate Discovery in Alberta, 65
American Corporation's Application for Use of Water from Niagara, 11
Anti-corrosion Association, 117, 132
Archæological Discovery in South Africa, 635
Archibald Dawnay Scholarships, 1922, 158
Argentina's Large Demand for Agricultural Machinery, 691
Argentine Government and the Improvement of Navigable Rivers, 327
Asbestos Deposits of Quebec, 193

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:
ASSOCIATION, BRITISH:
Boiler Efficiencies, Comparison of Coal and Oil Fuel, C. E. Stromeyer, 299
Nitrogen Industry and the Arc Process, Dr. J. A. Harker, 327
ASSOCIATION OF CONSULTING ENGINEERS:
Annual Dinner, 615

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):
ASSOCIATION OF ENGINEERS-IN-CHARGE:
Dr. H. S. Hele-Shaw as President, 219
Presidential Address, Professor H. S. Hele-Shaw, 380
INSTITUTE, CONCRETE:
Change of Title of the Institute Suggested, 299
INSTITUTE OF COST AND WORKS ACCOUNTANTS:
Sessional Examinations, 453
INSTITUTE OF MARINE ENGINEERS:
Annual Dinner, 453, 509
Reciprocating Steam Engine and the Steam Turbine, Engineer Vice-Admiral Sir G. G. Goodwin, 299
INSTITUTE OF METALS:
Admission of Student Members, 635
INSTITUTE, ROYAL, OF BRITISH ARCHITECTS:
Award of Archibald Dawnay Scholarships, 158
Illuminating Engineering in Relation to Architecture, L. M. Tye, 635
Tablet in Memory of Members and Students in the Great War, Unveiling, 525
INSTITUTE OF TRANSPORT:
List of Papers for Winter Session, 169
Safety in Railway Operations, Comment from India on Colonel Pringle's Paper, 273
INSTITUTION OF AUTOMOBILE ENGINEERS:
Annual, and Mirthful, Dinner, 439
Data Sheets, 8-51 Inclusive, Issued, 125
Low Compression Moderate-speed Engine *versus* High Compression High-speed Engine, Debate between Major F. Strickland and Mr. H. R. Ricardo, 469
Programmes of Papers for Present and Following Sessions, 412
INSTITUTION OF CHEMICAL ENGINEERS:
Definition of a Chemical Engineer, 65
Thirteenth Meeting of Provisional Committee, 363
INSTITUTION OF CIVIL ENGINEERS:
Awards for Papers in Section II., 537
Awards to Students for Papers, 537
Roll of Honour Unveiling, 397

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):
INSTITUTION OF ELECTRICAL ENGINEERS:
Associate Membership Examination, 229
Conversazione, 26
Co-operation between Board of Education and Institution of Electrical Engineers, 385
Election of Dr. J. A. Fleming as Honorary Member, 579
Meetings and Need of Control, 91
Recognition of Diploma of Technical College, Bradford, 91
Rotary Converters, with Special Reference to Railway Electrification, F. P. Whitaker, 193
Signalling System of Belgium, T. S. Lascelles, 385
Students' Premiums, Awards, 365
INSTITUTION OF ENGINEERS AND SHIPBUILDERS IN SCOTLAND:
James Watt Dinner, 537
INSTITUTION OF GAS ENGINEERS:
Gas Regulation Act, Mr. Thomas Hardie's Presidential Address, 11
INSTITUTION OF MECHANICAL ENGINEERS:
Annual Dinner, 660
INSTITUTIONS OF MINING ENGINEERS AND OF MINING AND METALLURGY:
Banquet, Prince of Wales as Guest, 568
INSTITUTION OF MUNICIPAL AND COUNTY ENGINEERS:
Fiftieth Anniversary, Projected Restriction of Membership Qualification, 537
INSTITUTION OF NAVAL ARCHITECTS:
Scholarship and Prize Awards, 372, 456
Scholarships Offered for 1923, 552
INSTITUTION OF PETROLEUM TECHNOLOGISTS:
Oilfields of Russia, T. G. Madgwick, 691
INSTITUTION OF PRODUCTION ENGINEERS:
Opening Meeting of the Session and Presidential Address, Max Lawrence, 441, 456
INSTITUTION OF RAILWAY SIGNAL ENGINEERS:
Intermediate Block Signalling, C. Carslake, 635
Light Signals, Papers by W. J. Sadler and H. E. Fawkes, 39
Second Annual Dinner, 65

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):
INSTITUTION, ROYAL:
Meetings and Elections, 26, 512, 619
Programmes of Christmas Juvenile and Subsequent Lectures, 606
SOCIETY OF ENGINEERS:
Suggested Formation of an Association of British Engineering Societies, 299
SOCIETY, FARADAY:
Annual Meeting, Election of Officers and Council, 591
Low Temperature Research, Professor Crommelin, 497
SOCIETY OF GLASS TECHNOLOGY:
Swelling of Sand, L. E. Norton, 65
SOCIETY, LIVERPOOL ENGINEERING:
Water Power, D. H. Thomson, 691
SOCIETY, OPTICAL:
Programme for Current Session, 453
Spirit Level, A Constant Bubble, E. R. Watts and Son, Limited, 664
SOCIETY, PHYSICAL:
Electro-magnetic Screening of a Triode Oscillator, R. L. Smith-Rose, 39
SOCIETY, ROYAL, OF ARTS:
Brown Coals and Lignites, Professor W. A. Bone, 665
SOCIETY OF TECHNICAL ENGINEERS:
Problems of Daily Work, Suggested Collection of Data as to their Nature, 630
Unemployment Insurance, Successful Scheme, 607
AUSTRALIAN Commonwealth's Projected Outlay on Postal Improvements, 385, 413
Australian Efforts to Establish Local Electricity Meter Trade, Suggested Import Duty Against England and the United States, 245
Australian Precautions Against Imports of Cheap German Goods, 299
Austrian Situation, Economic and Commercial, 245

B

BALL Bearings for Mining Work, A. Macauley, 441
Barry, Sir John Wolfe Wolfe, Dedication of Window, 607

Bauxitic Clay Deposit in Ayrshire, Use as a Refractory, 520
Belgian Congo's Production of Tin for Conversion into Cassiterite, 579
Belgian Requirements and British Manufacturers, 39
Bengal Budget Demands for Irrigation Projects, 117
Bengal Hydro-electric Survey, 117
Bengal-Nagpur Railway to Erect Brick Factory, 691
Blowing Forge Fires, New Device, 607
Boiler Explosion Due to Faults of Cleaning Doors, 441
Boron, Experiments on its Use in Steel Manufacture, 327
Brass Forging, O. T. Roder, 579
Brass Moulds, Plaster-cast, Moulding Mixture for, 579
Brazil as a Market for Cotton Ginning Machinery, 169
Brazil Port Works at Parahyba, 39
Bridge Painter's Fatal Accident, 245
Bridge, Steel, 480ft. Long, in Peru, 143
British Columbia, Mining Expansion of, 193
British Columbia's Outlay on New Roads, 65
British Engineering Standards Association, Copper Alloy Pipe Fittings, 574
British Non-ferrous Metals Research Association, "Research Work in Progress," 441
Broadcasting—*see* Wireless
Brussels Harbour, New Waterway Opened by the King, 553
Building Material Reported Superior to Concrete, 355
Bullock Carts with Rubber Tires in Ceylon, 273

ELECTRICAL MATTERS:

Agriculture and Loan for Electricity in France, 525
Argentina's Increasing Demand for Small Lighting Sets, 11
Award of Certificates and Diplomas in Electrical Engineering to Technical College Students, 385
Batteries for Electric Vehicles, New Charging Method, 607
Birmingham's Additional Electric Vehicles for Refuse Collection, 91
Bolton Corporation Turbo-alternator Set, 484
Burma and Electricity Supply, 385
Cables, History of, in Fifty Years' Electrical Engineering, 579
Chinese Market for Electric Material, Progress, 553
Chinese Progress in Use of Electricity, 193
Coffee Stalls in Street, Connection with Electric Lamp Posts to Obtain Cooking Supplies of Currents, 525
Denmark's Electrification Schemes, 91
Direct-current Production from Alternating Current, Machine Designed by W. E. Highfield and J. E. Calverley, 39
Edinburgh Electricity Works, Portobello Power Station, 384
Edison Electric Vehicle, 2½-Ton, for Refuse Removal, 553
Efficient Control of Super-power Stations, John Bruce, 607
Eiffel Tower Experiments with Poulsen Arc and other Transmission Systems, 231
Electrical Attraction Effect, Useful Applications, 305
Electrical Energy in France, Analysis of its Use, 691
Energy for Vehicle Battery Charging, Cheap Method for Supply, F. Ayton, 553
Fire at Metropolitan Railway Sub-station, 143
Garrett Electric Demonstration Vehicle Recommended by Glasgow Electricity Committee, 91
Generator, Third 60,000 H.P., for Chippewa Plant at Queenston, 169
Germany's Four Large Water Power Schemes, 91
Glasgow Electricity Supply, Most Successful Year's Working, 193
Heating of Fine Wires by Alternating Current, Professor Imhoff's Discovery, 245
High-tension Circuit Breakers, Largest Ever Constructed, 65
High Transmission Voltages, Rivalry Among American Electric Power Companies, 469
Howick, Natal, Electric Light in Excess of Requirements from Local Waterfall, 75
Hull (Canada) Electric Company's Projected Extensive Hydro-electric Development, 273
India and Electrical Matters, Certain Posts Abolished, 11
Industrial Electric Heating, J. S. Pearce, 169
Insulating Materials and Processes in Great Britain, Developments, A. P. M. Fleming, 90
Interconnection of Supply Systems, Good Illustration of its Advantage, 11
Japanese and China, New Power Transmission Lines, 497
Jubilee Issue of the *Electrical Review*, 579
Liffey for Generating Electricity, Order Applied for, 533
Liverpool Corporation Authorised to Purchase Electrical Supply Undertaking, 441
Madras Government Water Concession, 607

ELECTRICAL MATTERS (*continued*):

Manitoba Power Company's Big Scheme for Supply to Winnipeg, 85
Miniature Circuit Breakers for Domestic and Industrial Circuits, 299
Modern Storage Battery, Mechanical Properties of, L. C. Ilsley and H. B. Brunot, 385
Morwell Brown Coal Power Scheme and Erection of Auxiliary Station at Newport, Melbourne Report, 299, 665
Newfoundland and Power Scheme and Copper Smelting, 143
New South Wales Electric Power Generation, Control Called for, 525
North Wales and Chester Electricity Inquiry, Postponement, 469
Oil Circuit Breakers, Tests of, at Baltimore, 193
Power Plant Installation Projected in Perugia, 350
Power Plant for the Quito Electric Light and Power Company, 355
Power Station at Lydney for Supply to Stroud and Forest of Dean Collieries, 193
Power Station for Prai Wharves, Penang, 327, 355
Power Supply as a Specialised Industry, P. P. Wheelwright, 553
Power Transmission, Very Long Distance, 497
Reduction in Number of Accidents Due to Electricity, 91
Reversible 18,000 H.P. Motor, 117
Rods of Solid Dielectrics Permanently Charged with Positive and Negative Electricity, Investigations, 579
Rotary Converters, 1500-Volt, for Direct-current Railways, Brown-Boveri, 273
Russian Electric Ploughs, 607
Santiago Electric Station, Satisfactory Progress with, 614
Shanghai Municipal Supply, High Load Factor, 117
Swedish Power Stations Projected, 305
Telephone Apparatus for Detection of Faults on Small Direct-current Supply Systems, E. Humphries' Apparatus, 273
Textile Mills in India, Increasing Use of Electrical Power Drive, 515
Transmission at High and Low Voltage, Results of Comparative Tests, 39
Transmission Line, Experimental, for Operation of 600,000 Volts, 441
Upper India, Utilisation of Electric Power, 445
Utilising Earth Currents of Electricity, Apparatus Invented by M. Jules Guillot, 39
Victoria Falls Power Company at Johannesburg, Additional Plant, 665
Victorian Government Scheme for Utilising Brown Coal at Morwell, Professor W. A. Bone, 665
Voltage of Motors for Marine Auxiliary Machinery, 143, 229
Water Power Development in the United States, Immense Increase, 169
Water Turbine, Record Size, for Swedish Power Station, 169
Welding by Alternating Current, Wex System, M. Toernblom, 327
Westphalian Electric Tramways, Growth in Working Costs Threatens Stoppage, 273
ELECTRO-PLATING on Zinc, Previous Coating with Nickel, Experiments, 497
Electrodes for Welding Copper, Bronze and Brass, 606
Engineering Films for South America, Vickers Limited, 129
Engineering Joint Council, 158
Engineering Training at J. I. Thornycroft and Co., Limited, 23
Esparto Cellulose Factory in Granada for Paper and Powder Manufacture, 65
"European Commercial, The," 369
Evaporation from Free Water Surface, Experiments in Colorado, 469

EXHIBITIONS:

All-China Chamber of Commerce Domestic Manufacture Exhibition in Peking, 441
All-India Exhibition in Calcutta, 524
British Empire Exhibition, Allotment of Space, 607; Excellent Railway Communication, 193; Inspection of Site by British Engineers' Association, 39
Brussels Commercial Fair, 677
Commercial Fair in Madagascar, 660
International Foundry Trades Exhibition at Birmingham, 665
International Gas Exhibition Proposed in Amsterdam, 635
Patents and Inventions Exhibition in New York, 355
Scientific Novelties Exhibition at King's College, London, 691
EXPLOSION of Colliery Steam Separator, 11
Explosion of a Hot-table in a London Factory, 691
Explosion at Oppau Works, Cause Not Yet Discovered, 413
Explosion of Vertical Boiler on Dundee Salvage Boat, Comments on Neglect by Board of Trade Surveyor, 665
Explosion of Water-tube Boiler, Comments on Neglect by Board of Trade Surveyor, 528
Explosions in Steam Vessels and Neglect of Indications of Weakness, 39

F

FAIRS—*see* Exhibitions
Faraday House Old Students' Association, Annual Dinner, 496, 552
Fatigue of Metals and Tests in Progress in America, Professor Moore and Others, 91
Film Demonstration of Advantages of Automatic Fire Sprinkler, Mather and Platt, Limited, 143
Finsbury Technical College Old Students' Association, Eleventh Annual Dinner, 509
Fire-bars and the Schoop Process, Experiments and Results, 413
Fire-engine, New Motor, Presented to Hertford, 125
Fire Float, Largest, in the East, 11
Flax-pulling Competition in France, 91
Flax-treating Machinery, Demonstration in Riga Projected, 553
Flintshire New Road, Gronant to Rhyl, 553
Florence to have Entirely New Telephone Equipment, 441
Forest Wealth of Czecho-Slovakia, 665
French Navy Used for Commercial Propaganda Work, 327
Fuel Conservation Tests by American Shipping Board, Results Highly Satisfactory, 413
Fuel Economy in Steam Power Plants, John B. C. Kershaw, 273
Fuel, High-priced, in France, and Advantages of Semi-Diesel Engine, 245

G

GAS Economy Valve, 397
Gas Engine Plant Cheaper than Steam Power in South Africa, 413
Gas Poisoning in Factories, Mistaken Treatment for, Dr. T. M. Legge, 91
Gas Producing Plant Scrapped and Use of Coke Oven Gas Substituted, 355
Geophone in Mining Operations, Development and Experiments, 385, 579
German Goods in Small Parcels Reach Melbourne, 193
Glasgow Tramway Rails from America, Advance of Wages in United States, 245
Glazing, Unbreakable Type, 441
Goldfield in Northern Congo, World's Record Set-up, 65
Gold Mine in the Transvaal, Capacious New Shaft, 607
Gold Mine Workings Nearly a Mile and Quarter in Depth, 285
Gold Mines of Northern Ontario, Expected Output in 1923, 691
Gold Mining, Deep Sea, in Canada, 60
Gold Mining, Rich, on Cedar Creek, British Columbia, 665
Gold and Silver in British Columbia, New Discoveries, 665
Grain Elevator at Durban, Natal, Necessary Change of Site for, 607
Grain-handling Plant, Excellent Speed Results, 60
Graphite in Madagascar, 11
Grinding as a Metal Removing Process, 497

H

HAVRE Strike of Engineering Industries Ended, 441
Heat Transmitted Downward from Oil Burner, Danger of, 413
Helium Production at Rapidly Reducing Cost, Dr. Moore, 691
Hematite Ore Discovery in Johore, 385
High Steam Pressures Advocated, but Extremely High Temperatures Unprofitable, G. A. Orrock, 525
Horseley Bridge and Engineering Company During 100 Years, 51
Hydro-electric Development on the Gatineau River, Canada, 355
Hydro-electrical Development at Great Lake, Tasmania, Nearing Completion, 665
Hydro-electric Enterprises in Italy, 385
Hydro-electric Government Scheme Proposed in Argentina, 665
Hydro-electric Plant on Great Brak River, South Africa, 11
Hydro-electric Plant Projected on Bear River, Nova Scotia, 497, 525, 579
Hydro-electric Plant on the Winnipeg River, Canada, 691
Hydro-electric Scheme for Falls on the Frontier Line between Rio de Janeiro and Sao Paulo, 553
Hydro-electric Schemes in India, 245
Hydro-electric Works in Finland, 525

I

INDIA, Report on British Trade in, 525
Indian Imports of Merchandise, Analysis of Their Source, 299
Indian Schemes for Canal and Bridge, Proposed Combination and Adverse Comment, 65
Indo-European Telegraph Company's Concessions from Polish and Soviet Governments, 91
Industrial and Shipping Interests, Joint Committee of, 11
Industrial Welfare Society, First Lecture of Series, Robert R. Hyde, 469; Third Annual Lecture Conference, 288

IRON AND STEEL:

Blast-furnaces in France, Output of Cast Iron and Steel, 635
Boron as an Alloy, 327
British Cast Iron Research Association:
Director of Research, Dr. Percy Longmuir Appointed, 441
Laboratories, Subjects now in Hand, 691
Monthly Circular for September, 273
Valuable Investigations, 91
British Columbia, Projected Iron and Steel Industry, 355
British Empire Steel Corporation at Sydney, Nova Scotia, New Plant, 690
Cast Iron Brake Blocks, Investigation by Research Association, 497
Commonwealth Steel Products Works at Newcastle (N.S.W.), Large Government Orders, 273
Drilling for Iron Ore on Lake Athabasca, 579
Grinding of Steels, H. W. Wagner, 355
Hearth Gases from Blast-furnaces, G. St. J. Perrott, 607
High-speed Steel at a Red Heat, Tests to Prove its Cutting Power, 245
Imperial Steel Works at Yawata, Japan, 695
India's Prospective Output of Pig Iron and Steel, 579
Iron and Steel Industry of Europe, the Versailles Treaty and German Profit from War Scrap, 469

IRON AND STEEL (*continued*):
- Limitations of Pig Iron and Steel Production in New Zealand, 525
- Manchurian Scheme for Large Steel Works, 607
- Manganese Ore Deposits in Hungary, 64
- Morocco Iron Ore for Germany, 298
- National Federation of Iron and Steel Manufacturers, Sir William Larke as Director, 39
- National Federation of Iron and Steel Manufacturers, Returns for August, 273; Returns for September, 441; Returns for October, 525, 579; Returns for November, 665
- Ontario, Iron Mines at Atikokan, Reopened, 413
- Ontario, Problem of Iron Ore Development, 117
- Pig Iron Production in America, Dr. Koppers, 143
- Pig Iron Production for November in the United States, 691
- Pig Iron Production in Southern Russia, 355
- Pig Iron and Steel Production in Canada, 635
- Puddle Mill, Mechanically Operated, 186
- Pyrrhotite as Source of Ductile and Stainless Iron, Experimental Process for Electrolytical Production, 441
- Queensland Government State Steel and Ironworks at Bowen, 228
- Resistivity of Steels, 355
- Riveted Iron Pipe Relaid after Thirty-one Years' Use, 91
- Rock Drill Steels Heated in Automatic Furnace, 553
- "Seamless" Tanks and Sheet Steel Vessels, 193
- Small Electric Furnaces, Direct and Indirect Arc, for Small Experimental Heats of Alloy Steel, Comparison, 441
- Smelting Plant, Crude Type, Unearthed in South Africa, 635
- South African Electric Furnace Working at Iron and Steel Works, 385
- South Africa, Iron and Steel Encouragement Bill, 227
- South African Iron and Steel Goods Production, 413
- Spanish Exports of Iron and Steel, 525
- Stainless Steel, Book by Thos. Firth and Sons, Limited, 309
- Steel Chimneys, Lining with Cement Mortar or Brick Compared, 355
- Steel Direct from Ore, Favourable Results from Direct Electric Furnace Method, 245
- Steel, New Kind of, Developed in France, M. Chafnard, 327
- Steel Turnings Replace Wood Shavings, 525
- Swedish Iron Ore Exports Contrasted with Inland Trade Results, 413
- Tata Iron and Steel Company's Mills, Products Tonnage and other Statistics, 299
- Tool Steel, New, Tungsten-chromium-cobalt Class, 469
- Tungsten in China, Increase in Production and Export Trade, 193

- Eastern Group Railways' Notices to Shareholders Regarding Amalgamation, 497; Terms of Amalgamation, 548
- Eastern, North-Eastern and Four other Companies Group to Form a New Company, 169
- Great Northern and Great Eastern Negotiations Reported Complete, 65
- Mr. Charles Sheath's Record, 665

RAILWAYS AND TRAMWAYS (*continued*):

Grouping of Railways (*continued*):

LONDON AND NORTH-EASTERN GROUP (*continued*):

Scheme, Approval of, by Companies Concerned, 553; Approval also by Railways Amalgamation Tribunal, 635

SOUTHERN GROUP:

Hayling Railways Company Absorption, 497

Isle of Wight Railway Absorbed by London and South-Western in Southern Group, 11, 439, 497

Isle of Wight Railway in Receiver's Hands, 497

London and South-Western to Absorb the Lynton and Barnstaple Railway, 117, 553

South-Eastern and Chatham Railway, The New Amalgamation, 11, 143, 474

Southern Group Absorption of Fourteen Companies, but Terms only Arranged with Two, 439

Southern Group Terms Arranged, Further Steps, 474, 497; Terms of Allocation, 553; Approval by Railways Amalgamation Tribunal, 635

Halwill and Torrington Railway, North Devon, 100

Hangchow, China, Proposed Electric Tramway, 100

Heating of Carriages, Electrical, and also by Steam, 385

India and Continuous Brakes for Goods Trains, 273

Indian Allotments for New Plant and Improvements to Bombay, Baroda and Central India Railway and to Great Indian Peninsular Railway, 273

Indian Central Railway Advisory Board Decides on State Management, 273

Indian Railway Board, Acworth Committee Recommendations, 422

Indian Railways and Question of Future Management, 355

Indo-Ceylon Train Ferry, at Last Self-supporting, 524

Inner Circle Trains, Increase of Cars, 385

Institutions, Locomotive and Railway—*see* Associations

Interim Dividends Higher, 117

International Chamber of Commerce, Railway Transport Meeting in Paris, 385

International Railway Association Congress in London and, Later, in Madrid, 245, 441

Irish Appointments to Senate and Chamber of Deputies, Railway and other Engineers Included, 644

Irish Railway Bridge at Coleraine, 240

Irish Railway Companies and the Men's Wages, 240

Irish Railways' Compensation, 469

Irish Railways' Future, Southern Ireland Commission Report, 281

Irish Railways and the Ministry of Transport, 143

Iron and Steel Trade Materials, Reduced Rates for Conveyance, 607

Kantara-Hafa Railway in Egypt, Cost and Control, 39

Light Railway Order, Extension of Ashover Line, Derbyshire, 553

Light Railway Projected Between Longridge and Hellifield, 616

Light Railways and Local Rating in North Wales, 441

Light Signals to Replace Semaphores at Derby, 91

Lithuanian Projected Railway on the Baltic Coast, 611

Lithuanian Railway Projects, Further, 607

Locomotive Coal Contracts by Northern Railway Companies, 355

Locomotives Built at Woolwich, Criticism of Irregular Expenditure, 219

London, Brighton and South Coast Electrification, Extension to Coulsdon, 193

London, Brighton and South Coast Locomotive Remembrance, 525

London and Brighton, Expensive Non-stop Train to Fratton, Financial Improvement Effected, 193

London Electric Railways, Some Projected Improvements, 245

London and Manchester Train Service, Complaints of Deterioration, 91

London and South-Western Company's Bill and Powers Sought by London, Brighton and South Coast Company, 607

London and South-Western Train Service Between Ludgate Hill and Tooting, Suspension, 193

Madagascar, Railway Construction in, 441

Malay States Railways, Plant for, 535

Melbourne and Metropolitan Tramways, Report on Proposed Extensions, 169

Melbourne Suburban Railways, Lengthening of Platforms, 553

Mersey Railway Re-signalling, Success of, 65

Metropolitan Electrification Extension, 355

Mexican Government New Railway in the State of Sonora, 39

Mexican Railway Main Line Electrification, 579, 635

Midland Railway and Port of London Bill for Facilities for Liners at Tilbury, 169

Ministry of Transport Abolition, Date to be Settled, 635

Ministry of Transport's Powers and Accident Prevention Measures, 193, 355

Ministry of Transport and Railway Companies' Association, Statistics Question, 11, 192, 245

Ministry of Transport, White Paper on Number of Railway Employees, 635

Motor-propelled Trolleys Recommended for Platelayers, 152

Motor Train Operation in Australia, Successful Result of Experiment, 413

Moving Platforms in Paris Underground Stations, Tenders for Installation, 355

National Union of Railwaymen and Associated Society of Locomotive Engineers and Firemen, Companies' Proposals, 441, 497

National Union of Railwaymen and the Coal Dispute Stoppage of Traffic, 91

National Union and National Transport Workers, Affiliation Question, 665

RAILWAYS AND TRAMWAYS (*continued*):

Nationalisation, Mr. Winston Churchill's Changed Views on, 525

New South Wales, Clyde Engineering Works, Settlement of Dispute, 245

New South Wales Railway System, Importance, Statistics, 607

New South Wales and Victoria Agreement on Construction of Border Railways and Bridges, 273

New Zealand Line Suggested in the North Island, 117; Report on Cost, 635

New Zealand Railway Wagons, 2000 Imported from Great Britain, 327

Nitrate Railways Company Electrification, 273

North British Railway's Long-standing Dispute with Ministry of Transport, Settled, 497

North London Railway's Safety Record, 579

North Staffordshire Railway War Memorial, 219

Northern Counties (Ireland) Section of the Midland Railway, Changes in Administration, 193

Norwegian Grant for Nore Power Station and Numedal Railway, 65

Nottingham Station's Closed Entrance, 691

Paddington Station, Signalling Alterations, 441

Parcels Post and the Railways, Agreement, 11, 91

Paris-Brest Route, Couchettes Provided, 391

Paris-Saint Germain Aerial Railway Proposed, 691

Patagonian Possibilities, Projected Light Railways, 579

Pekin-Mukden Railway and the Kailan Coal Mines, 143

Pernik-Sofia Line Electrification, 525

Powers, Various, Sought by Several Railways, 607

Privately Owned Railway Wagon to Continue, 169

Pullman Car Company, its Advantage to the Railways, 421

Pullman Car Trains Newly Started, 91

Pullman Restaurant Cars on the Highland Railway, 299

Quickest Route from London to London, Brighton and South Coast's Portsmouth Line, 497

Railway Amalgamation Tribunal:

Approval by Amalgamation Tribunal of Schemes of London and North-Eastern Group and also of Southern Group, 635

Distribution of Funds Due Under the Railways Act, 117

East London Line's Share of Funds, 117, 643

Grouping of Railways—*see* Grouping

Railway Communication for Exhibition at Wembley, Excellent, 193

Railway Companies and the Men's Unions, Pay Reduction Question, 200, 245, 327, 355, 441, 497, 607

Railway Fares and Grouping, 299

Railway Material Exports Statistics, 11, 143, 219, 299, 469, 691
